

Friday, November 10, 2017 10:40 PM

Dear Sir/Mdm,

Hi,

I am submitting an informal observational report just in case our education sector is really targeted. I am a Research Analyst at the Nanyang Technological University, Institutional Statistics Unit. I joined NTU on the 21st Oct 2015.

About QS Ranking Project I am involved in (usually around october every year)

Every year, NTU, NUS, SMU will participate in the QS World University Ranking Project. In NTU, my department will request various institutes and departments in the University for a set of recommended contacts, which will then be consolidated into two masterlists - academic masterlist and employer masterlist.

The academic masterlist contributes 40% of the university ranking, and the employers masterlist contributes 20% of the ranking.

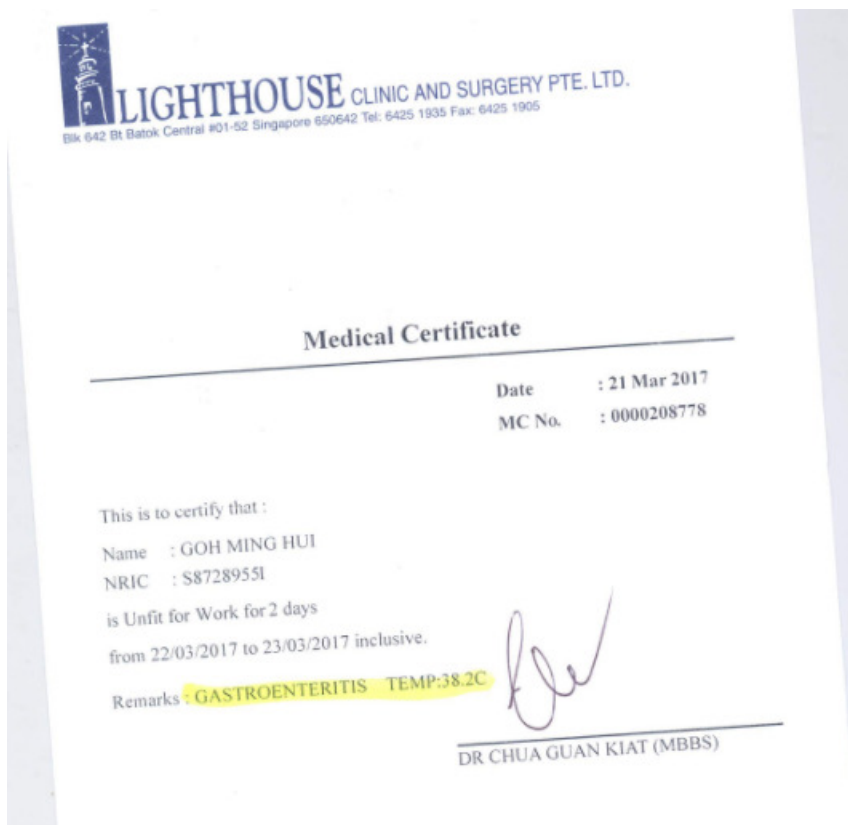

The consolidated list will then be sent to the QS Company, who will email the contacts in the masterlist to ask feedbacks on the university. The better the feedback, the higher the university will be ranked.

Hence, the cleaning of the data and selection of names to submit is very important. I will be responsible for the cleaning of the data, and in the academic masterlist team. Of course I used some of my advanced algorithms.

Bacteria and Virus Infections after taking over the project

Since I joined NTU and participated in this project, I have been getting many virus or bacteria infections.

MC of Major infections, usually sinus related:

Please note:
(1) No withdrawal or refund of courses/examination fees is allowed. All transfers are considered on a case-by-case basis. An administrative charge of \$53.50 (Infocomm Professional Courses) or \$10.70 (all other courses) will be imposed for all approved refund/withdrawal/transfer.
(2) For all funded course, individuals/company are required to reimburse NTUC LearningHub the full course fee should the trainee fail to:
a) achieve at least 75% attendance and/or;
b) sit for the exam (for exam or competency-based course) within the stipulated timeframe upon course completion;
c) show up for class, thereby defaulting the training places allocated.
(3) For Workplace Safety Courses:
a) The following is required to be eligible for examination
i) 100% attendance for workers' level courses and/or;
ii) at least 80% attendance for supervisory courses and/or;
iii) at least 75% attendance for other workplace safety courses.
b) Attire requirements for courses with Practical Sessions.
Trainees must wear proper Personal Protective Equipments during the Practical Sessions.
(Personal Protective Equipments includes Proper Working Attire, Safety Eyewear, Safety Boots and Safety Helmets).
ONLY Safety Harness and Gloves will be provided during the training when necessary.
(4) For examination-based courses, any amendments to exam booking that is confirmed, an administrative charge of \$21.40 will be imposed and is subjected to availability.
(5) Trainee is eligible for partial payment for course fee above \$1,000. Partial payment is not applicable for:
a) Course fee payable less than \$1,000 after discount/promotion
b) Company-sponsored trainee
c) Reservation/payment made via web
(6) Partial payment amount is \$300 minimum or 10% of course fee, whichever is higher. Balance of the course fee must be paid at 3 working days before the commencement of the course, or else the partial payment made will be forfeited.
(7) All classes are confirmed and no confirmation letter will be issued (unless advised otherwise).
(8) You are advised to be punctual for class. Due to examination guidelines, latecomers will not be entertained and will be barred from examination.
(9) Venue and room are subject to changes.
IMPORTANT:
Please bring along this tax invoice/confirmation slip and an identification document (NRIC/Work Permit/PA and passport (photocopied), NTUC Membership card (if any)) for verification purpose on the first day of class.

Challenges faced during the Project (starting from second year)

Actually, in 2016, during the ranking project duration, there was a sudden increase in the number of contacts, from normal 3000 (every year) to 8000. During the names selection, there was a lot of distractions such as phone calls and messages while my director is going through the masterlist with me to select the names. NTU QS ranking increased, but NUS QS ranking decreased, and SMU just join the QS Ranking project.

In 2017, based on the previous year 2016 experience, I developed the software DSTK to assist me in the cleaning of the masterlist. Link: <https://sourceforge.net/projects/dstk2/files/DSTK/>

(The dates are there for the progress, my NTU version will have some addons to it).

During the development of the DSTK project, I developed very high fever (first time in my life) and dragged myself to Ng Teng Fong Hospital.

MC from hospital emergency due to very high fever, doctor attended is actually a malay doctor...

A lot of things happened after that, including abnormal workload, backstabbing and chaos. Basically, I now also cannot trust my colleagues and directors. But I am not looking into the personal stuffs or office politics. Since 2016, and now 2017, these "strange things" just not in the right timing.

Examples:

20/7 5 continue until 9.20?

Challenges at Home after work during the Project in 2017

I lived in Bukit Batok, and as stated on news, there are a lot of strange things like snake on lamp post, pipe burst and factory fires, all happened after the development of DSTK software and during the ranking project period (oct 2017 to next year feb)

Some resident feedback: <http://goodyfeed.com/bukit-batok-now-new-yishun-python-found-lamp-post/amp/>

Significance

In Singapore Education Sector, only NUS and NTU are ranked in QS, THE. SMU just joined in the ranking. If any of these university ranking falls too much, there will be great impact on the sector, reputation, and economy. If other major companies also faced such chaos, our economy may be threatened.

I am writing in in case anything happened, these may be useful for your investigations.

Thank you.

Kind Regards,
Eric M. H. Goh
